How To Run Prototype

1. Unzip "Website" folder.
2. Run open index.html (should open webpage in browser)
3. Use the program.

STATUS

We were unable to get the search functionality to work. Current available functionality:

1. View Trending Photos
2. Filter Trending Photos by Tags
3. View Profile
    1. View uploaded images
    2. Filter uploaded images with their popularity, and recency.
